

# Are you **hot** for the next step?

- ☐ You are a senior software developer, knowledgeable in microservice-based architecture?
- ☐ Your tech stack is C# and Angular?
- ☐ You really want to be more than a developer?

Take the next step in your career and be the

## Head of Software Development (f | m | \*) (Styria, Austria)

Are you **passionate** about industrial software?

Let us have your application at [jobs@qoncept.at](mailto:jobs@qoncept.at) and learn more about us at [qoncept.at](https://qoncept.at)

qoncept technologies supply the next generation industrial MES software platform to the manufacturing industry.

You will be leading a team of currently 10 developers. You are tasked to grow the team to a sustainable size with international members and conduct an efficient development process. Coding important parts of the software will be part of your job.

### Being a qoncept brings along:

- ☐ Highly flexible working culture
- ☐ Quick decision making – success counts!
- ☐ Cooperation with highly qualified colleagues from different disciplines
- ☐ Modern office space and infrastructure
- ☐ Individual agreements for company car, annual Klimaticket, bonus, etc.
